

A POINT LOMA EDUCATION

The Curricula

It is the goal of the University to provide an education in the liberal arts tradition and in professional areas that balance a broadening experience in its General Education Program with the depth necessary to concentrate in one of the major programs.

The undergraduate curricula at Point Loma Nazarene University include a wide variety of programs. Majors from Accounting to Theatre are complemented by minors and credentials in many areas. The University also encourages and assists students who wish to study abroad. Many programs feature internships and practicum experiences. Off-campus cooperative programs also offer students the benefits of spending a part of their educational experience in nearby locations or on the other side of the globe.

THE GENERAL EDUCATION PROGRAM

Curriculum

The purpose of the General Education Program is to provide a common educational experience, to develop essential skills, and to provide broad cultural background for personal and professional growth.

The curriculum is listed under a four-fold division. This structure provides continuity with the Wesleyan approach to knowledge by emphasizing the human response as foundational to the developing, exploring, and seeking aspects of education. The divisions, although not mutually exclusive or all-encompassing, organize similar themes relevant to faith and learning. Each complements the others and, in each, conscious efforts are made to reveal connections, develop perspectives, and build synthetic thinking skills. These divisions are: Responding to the Sacred, Developing Cognitive Skills, Exploring an Interdependent World, and Seeking Cultural Perspectives.

GENERAL EDUCATION COMMITTEE

The General Education Program is approved and sustained by the faculty under the direction of the Dean of General Education and a faculty committee. The General Education Committee directs an on-going cycle of review and improvement based on established goals and objectives.

GENERAL EDUCATION PREREQUISITES

Students are required to demonstrate basic competence in mathematics and writing based on standardized test scores. *Any remedial courses, numbered below 100, taken to satisfy competency requirements, are in addition to the minimum of 128 units required for graduation.*

GENERAL EDUCATION REQUIREMENTS

The specific requirements in the General Education Program, as established by the faculty, represent a broad-based experience in skills and ideas. The following selection of courses is designed to guide the student toward a liberalizing educational experience in the arts and sciences while allowing for substantial choice in the development of that education.

I. Responding to the Sacred

A study of Scripture and Christian heritage as foundational in the pursuit of knowledge and the development of personal values.

MAJORS AND MINORS

Point Loma Nazarene University offers the Bachelor of Arts, the Bachelor of Music, and Bachelor of Science degrees, with over 40 majors, some offering concentrations, and the Bachelor of Science in Nursing. See the Admissions section for lists of majors and concentrations currently offered by the University.

Optional minors are offered in several schools and departments. The minimal requirement is 16 units with a GPA of at least 2.000 taken over all courses required for the minor. At least nine units must be completed at Point Loma, and be in a discipline distinct from and not counted in the student's major. The upper-division requirement for the minor is 12 units.

TEACHING CREDENTIALS

Courses necessary to satisfy the requirements for the following teaching credentials are offered. The requirements presented in the School of Education section are in addition to the requirements for the baccalaureate major.

- Single Subject Teaching Credential – 2042 (Secondary) (Teacher Education)
- Multiple Subject Teaching Credential – 2042 (Elementary) (Teacher Education)

PRE-PROFESSIONAL AND COOPERATIVE PROGRAMS

Engineering

Kenneth B. Aring, Advisor

Two options are open to students who wish to work toward a degree in some branch of engineering.

- Those interested in an electronics emphasis

may earn a degree in Engineering Physics at this University (see Department of Physics and Engineering).

- For a professional degree in any branch of engineering, the student may take two years of basic course work at this University followed by a transfer to an engineering school.

Interested students may seek counsel from the Engineering advisor.

Pre-law

Dwayne L. Little and D. Michael McKinney, Co-Advisors

The Pre-Law program is designed to provide those considering legal careers with all the information and support they need to assist them with accomplishment of their goals. While most of the program centers on the concerns of those planning to attend law school, help is also available for those contemplating paralegal, government, and other law-related careers.

There is no "Pre-Law Major" as such, since the American Association of Law Schools and almost all ABA-approved law schools discourage such practices. Instead, the Point Loma program focuses on assisting students of any major with information on the best preparation for law school, including: the Law School Admissions Test, application procedures and strategies, internships, the bar exam, and practice and placement issues.

The Pre-Law program brings speakers to the University in small-group settings and provides a wide variety of programs. Guests include law school admissions officers, practicing attorneys, judges, and others involved in legal careers. In addition, the advisors (one a practicing attorney) provide individualized counseling for all Pre-Law participants. The advisors also administer an internship program through which selected Point Loma students are placed for a semester with the Curator's Office of the Supreme Court of the United States. Students interested in any aspect of the Pre-Law Program should contact the advisors early in their academic career.

Pre-medical/Pre-dental

Kerry D. Fulcher, Advisor

Students may prepare themselves for admission to medical and dental schools by pursuing a four-year program of study as suggested by the Pre-Medical Advisor. Medical and dental schools make no requirements regarding the choice of major for Pre-Medical students but encourage a broad liberal arts background in the humanities, social and behavioral sciences, natural sciences, and mathematics. In addition to a bachelor's
