Gregory D. Crow and Maria R. Zack with Tyler Gray
Student Project, "Quantitative Analysis of Alumni Survey Data," Point Loma Nazarene University, May 2007. Faculty Advisors for Tyler Gray's senior honors project.

Gregory D. Crow and Maria R. Zack with Heather Lausch
Student Project, "Merging Faith and Mathematics: Quantitative Analysis in Aid of Institutional Research," Point Loma Nazarene University, May 2007. Faculty advisors for Heather Lausch's senior honors project.

Gregory D. Crow and Maria R. Zack with Amy Swen

Student Project, "Analysis of Survey Data on Student Spiritual Disciplines," Point Loma Nazarene University, May 2007. Faculty advisors for Amy Swen's senior honors project.

David E. Cummings with Grace Fawcett and Jason Kroening

Student Research, "Antibiotic Resistance Genes in Tijuana Estuary Sediments," Point Loma Nazarene University, Fall 2006 and Spring 2007. Grace and Jason studied the presence of antibiotic resistance genes in Tijuana Estuary sediments using PCR.

David E. Cummings with Tasha Kopschy

Student Research, "Antibiotic Resistance Profiling of *Acidiphilium cryptum* Strain JF-5," Point Loma Nazarene University, Fall 2006. Tasha examined *Acidiphilium cryptum*'s ability to resist a broad range of antibiotics.

David E. Cummings with Nathan Singh, Kelsey Unruh, David Arriola, and Cody Ryan

Research project, "Antibiotic-Resistant Bacteria in California Coastal Wetlands," Point Loma Nazarene University, Summer 2007. Four Biology majors performed original research into the spread of antibiotic resistance genes in coastal wetlands.

David E. Cummings with Kelsey Unruh

Student Research, "Antibiotic Resistance Genes in Tijuana Estuary Sediments," Point Loma Nazarene, Fall 2006. Kelsey studied antibiotic resistance genes in Tijuana Estuary sediments using PCR.

David E. Cummings with Kelsey Unruh, Amy Hebling, and Stephan Spring

Conference Poster, "Microbial Diversity of Native and Fe(III)-Enriched Consortia from the Sediment-Water Interface of an Estuarine Coastal Wetland," West Coast Biological Sciences Undergraduate Research Conference, Loyola Marymount University, Los Angeles, California, April 2007.

Conference Poster, "Microbial Diversity of Native and Fe(III)-Enriched Consortia from the Sediment-Water Interface of an Estuarine Coastal Wetland," American Society for Microbiology, General Conference, Toronto, Canada, May 2007.

Robert C. Elson with Brandon D. Best and John W. Stevenson

Began undergraduate biology research program, Summer 2007. Funded through RASP grant and departmental program grant from Howard Hughes Medical Institute.

Victor L. Heasley with Jeff Boerneke, Kristen Metrovich, Lisa Sator and Luke Tatum

Research Project, "Studies on the Chlorination of Model Compounds of the Humic Acids," Point Loma Nazarene University, Summer 2007. Ten-week study on the reaction of chlorinating agents with humic acid model compounds. The research was supported by the National Science Foundation (NSF).

Leon M. Kugler with Julianne D. Toler

Research Project, "A Comparative Kinematic Analysis of Subtalar Joint Motion in Runners," Honor Scholars Ceremony, Honors Conference, Point Loma Nazarene University, April 13, 2007. Found that subjects with a history of Medial Tibial Stress Syndrome have a greater amount of subtalar eversion.

Dwayne L. Little with Joshua Grace, Christopher Rhamey, Megan Dukett, Kaylin Gill, and Ricky Bell

Faculty-Student Research Publication, "Coming out Gay, Coming Out Christian: The Beginnings of GLBT Christianity in San Diego, 1970-1979," *Journal of San Diego History*, Volume 53, No. 3, Summer 2007. Kenneth A. Martin with Sean Ryland

Research Project, "Studies on Excimer Emissions of Disubstituted Naphthalenes," Point Loma Nazarene University/Westmont College, Summer 2007. Ten-week effort to use optical emission data to study temperature dependant solid state transitions in substituted naphthalenes.

Kenneth A. Martin with G.H. Allen, Sean M. Ryland and A.M. Nishimura

"Excimer Fluorescence of 1,4-Dibromonaphthalene on Al_2O_3 ," 54th Annual Western Spectroscopy Association Conference, Asilomar Conference Center, Pacific Grove, California, January 31, 2007.

"Wavelength Resolved TPD of Naphthalene and Substituted Naphthalene Adlayers," Southern California Undergraduate Research Conference, California State Fullerton, Fullerton, California, April 28, 2007.

Dawne M. Page with Nadia Tarazi, Kevin Ranum, Rebekah Schneider and Kimberly Lew

Research, "T Cell Development in Mice and Zebrafish," Point Loma Nazarene University, May 2007 to August 2007. Investigation of the behavior of T cells in the immune system.

Dale F. Shellhamer with Matthew P. Herrick, Rachel N. Jones, Ryan J. Weiss

Poster Presentation, "Ionic Reactions of Halogens with 4-halo-1,1,2-trifluorobut-1-enes," 233rd National meeting of the American Chemical Society, Chicago, Illinois, March 25, 2007. Poster presentation by Matt Herrick on the rearrangement of three-membered halonium to five-membered halonium ion intermediates.

Dale F. Shellhamer with Kevyn J. Davenport, Rachel N. Jones and Ryan J. Weiss

Summer Research, "Electrophilic Reactions of Halogens with 4-halo-substituted fluorobut-1-enes," Funded by the National Science Foundation, Point Loma Nazarene University, Summer 2007. The students synthesized new compounds to probe the influence of fluorine substitution on the product distribution during electrophilic reactions.

John T. Wu with Courtney Miles, Annalise Tablak, Courtney Pearce, and Vanessa Parra

Conference Poster Presentation, "The Connection Between Attachment Quality and Psychological Distress," Rocky Mountain Psychological Association Annual Convention, Denver, Colorado, April 2007. Presented research regarding attachment quality and psychological distress.

Point Loma Nazarene University

Point Loma Nazarene University is the regional liberal arts educational institution of the southwest region of the Church of the Nazarene. Founded in 1902 in Los Angeles, California, by Dr. Phineas F. Bresee, the University brings together opportunities for intellectual discourse, leadership development, and spiritual formation within a supportive faith of gifted, committed faculty and professional staff.

Accredited by numerous agencies and associations, including the Western Association of Colleges and Schools, Point Loma enrolls approximately 3,400 students at five locations. On the main San Diego campus, students may earn the bachelor's degree in 57 major areas of study. At PLNU, students also may pursue graduate degrees in business administration, religion, education, nursing or biology. The University offers graduate and credentialing programs in education in Arcadia, Bakersfield, the Inland Empire, and in San Diego's Mission Valley.

In addition to their academic pursuits, students are encouraged to develop a committed, personal relationship with Christ. They are continually exposed to and challenged by truths that foster an authentic and thoughtful personal faith. PLNU's commitment extends to the development of the whole person.

Individuals serving as faculty at Point Loma Nazarene University are committed to lifelong teaching and learning. With a strong dedication to excellence in a community of faithful learners, the PLNU faculty bears witness to Jesus Christ by exhibiting scholarship as an act of stewardship to God.

*“Love the Lord your God with all your heart and with all your soul and with all your **mind.**”*
