

Future Issues for PBC  
(Oct 10, 1995)  
(draft)

1) Technology Management

What technology (computers and software, video equipment CD-roms, telephones, etc) should we acquire?  
Who decides? Who controls and supports the technology?  
How integrated should our systems be?

2) Space Allocation

With new buildings coming on line, there will be a shuffling of space. Who will decide who goes where?

3) Enrollment Management Policy

Admission standards/scholarship policy/retention issue/student satisfaction with such factors as transfer credit/dorm life/parking/customer service  
What factors influence students in their decision to come to PLNC and what is it that keeps them here?

4) Donor/Alumni Relations

What could be done to attract new donors? Big donors?  
How could the college improve its interface with its alumni, particularly the non-Nazarene alumni?

5) Student Affairs

What new issues (and opportunities) can we anticipate as PLNC moves into the new Commons? How can we use the new facility to improve the quality of the student experience? What issues revolve around residential life, or commuter?

6) Academic Program Development

What are the findings of program review? What, if any, new programs should be considered? How can the college improve quality without extensive growth?

7) Others

New Directions for Spiritual Development  
" " " Intercollegiate Athletics
