¹ Calculus is only required for certain majors (see catalog for specific major requirements). All other majors have the option of taking MTH303, Problem Solving, at PLNU to complete the GE requirement.

² Current students or students who have previously attended PLNU must take a total of 8 units of science. Many transfer colleges only offer 3 unit non-lab sciences, so the lab is then required to complete the 8 unit requirement at PLNU. An exception is made for first-time transfer students who have already completed at least 7 units (with at least one lab) of a biological and physical science combined before transferring to PLNU.

³ Students must complete 3 semesters of a foreign language to equal the content covered in 2 semesters at PLNU. Students may also choose 3 semesters of French.

⁴ This course only applies toward the GE requirement for students who declared or began under the 2008-09 catalog or beyond.

⁵ This requirement includes all first-time freshman who graduated from high school the semester before enrolling at PLNU, regardless of the number of transfer units earned in the summer or while concurrently enrolled in high school and junior college. PSY101 is also required for transfer students with fewer than 24 units. All other transfers need PSY103.
