Residence Hall Furniture Policy

During previous years a number of PLNU residential students experienced disruption and dislocation due to the existence of bed bugs in several residence halls. The primary method of infestation was the transmission of bugs to campus on used furniture. PLNU responded and has developed one of the leading bed bug prevention programs. As a result, we are in our fourth year with no cases of bed bugs.

Therefore, students are not allowed to bring the following items to campus:

- Any upholstered furniture which includes but is not limited to: couches, chairs, and upholstered storage bins.
- Any furniture with upholstered attachments that cannot fit into a university dryer which includes: futons and “papason” chairs.
- Any pillows, cushions or bean bags, that are too large to fit in a university dryer.

For items that can fit into a university dryer, however, students must:

- Visually inspect all items prior to moving them into a residence hall.
- Pre-treat items prior to arrival to PLNU by placing them in a large capacity dryer on the highest setting for a minimum of 30 minutes.
- Items must never be stored outside or in a garage prior to arrival at PLNU or while at PLNU.

We also ask that suitcases used previously for foreign travel be left at home as well as all used backpacks, duffle bags, and bedding be pre-treated prior to arrival at PLNU.

Note: A student whose property introduces a bed bug infestation may be financially liable for all or part of the cost of mitigating measures, and their property may be confiscated.
